

Spencer

Tristan

The Townshend Kids

Polo Run Neighborhood Announcement

Mitzi and Richard Townshend have two special needs children, Spencer (11) and Tristan (7). On occasion, they have been known to escape on unauthorized excursions. Either maybe on their scooters or walking.

APPROACH

Both boys are friendly, but may ignore you. The best approach is to stop them in their tracks. (*literally*) Stand in front of them and say **STOP!** Turn them around and say **GO BACK HOME! Loudly, with authority.** Tristan may cry, but don't worry. Neither will put up a defense.

Obviously if either has gone too far and has to cross a busy road to get back then **PLEASE STAY WITH THEM** so no harm comes to them. The police are aware of them. Tristan wears an ankle bracelet tracking device, but often he can get a long way before the alarm goes out, so it is better just to stop them.
